Economics PhD Mathematics and Statistics pre-course

This package is the pilot draft of the eight-week Mathematics and Statistics Pre-course.

This landing page contains the index of all the content in the course.

Syllabus

- Economics PhD Mathematics and Statistics pre-course syllabus
- Advanced extensions

Weekly materials

Week 1

- Week 1 reading guide and worked examples
- Bridge note: Notation And Conventions
- Week 1 question sheet
- Week 1 progressive hints
- Week 1 complete solutions

Week 2

- Week 2 reading guide and worked examples
- Week 2 question sheet
- Week 2 progressive hints
- Week 2 complete solutions

Week 3

- Week 3 reading guide and worked examples
- Week 3 question sheet
- Week 3 progressive hints
- Week 3 complete solutions

Week 4

- Week 4 reading guide and worked examples
- Week 4 question sheet
- Week 4 progressive hints
- Week 4 complete solutions

Week 5

- Week 5 reading guide and worked examples
- Bridge note: Conditional Expectation
- Week 5 question sheet
- Week 5 progressive hints
- Week 5 complete solutions

Week 6

- Week 6 reading guide and worked examples
- Week 6 question sheet
- Week 6 progressive hints
- Week 6 complete solutions

Week 7

- Week 7 reading guide and worked examples
- Bridge note: Estimators And Method Of Moments
- Week 7 question sheet
- Week 7 progressive hints
- Week 7 complete solutions

Week 8

- Week 8 reading guide and worked examples
- Bridge note: Distribution And Critical Values
- Week 8 question sheet
- Week 8 progressive hints
- Week 8 complete solutions

Assessments

- Checkpoint A - question paper
- Checkpoint B - question paper
- Checkpoint A - full solutions
- Checkpoint B - full solutions
- Two-paper mock examination
- Mock diagnostic examination - Maths paper
- Mock diagnostic examination - Probability and Statistics paper
- Mock diagnostic examination - Maths full solutions
- Mock diagnostic examination - Probability and Statistics full solutions
